

A Learning Calendar

This calendar can help children acquire the necessary foundation to meet success in school and find learning challenging and rewarding. The suggested basic skill activities take only a few minutes a day. Activities that are too difficult or too easy can be adjusted to meet the needs and age of the child, to the materials available, and to schedules.

Each month the suggestion is made to write a letter to someone and to go to the library/read a book. The child, who understands that spoken language can be recorded and feels the importance of communicating ideas, is well on the way to wanting to be a good reader and writer.

August 2008

Sun	Mon	Tue	Wed	Thu	Fri	Sat
					1 Tell a story about swimming with a whale.	2 Write a letter.
3 Make paper airplanes.	4 Say/sing nursery rhymes.	5 Make a mud pie; divide it into five equal parts.	6 Guess; then count the slices in a loaf of bread.	7 Learn to wink.	8 Say the alphabet forward and backwards.	9 Make and send a card to a church member who is sick.
