

Place Value File Folders

1. Duplicate the number of pages of each file folder cover that you will need for each grade level.
2. Have the student glue it as the cover on their file folder.
3. Have the student make the vertical cuts for each place value.
4. Place a piece of graph paper under the cover.
5. Lift each flap and label that place value.
6. Draw a line so if the file folder cover is completely open, the student will know the place values.
7. Use with place value activities each day. Have students practice writing numbers in place value each day. Students can alternate use of standard, word form (number name,) or expanded form.
8. Students can also use to compare numbers.

**Lift up your eyes on high, and see who has created these things,
who brings out their host by number.
He calls them all by name, by the greatness of His might
and the strength of His power: not one is missing.**

Isaiah 40:26 NKJV
